

Product Management Essentials

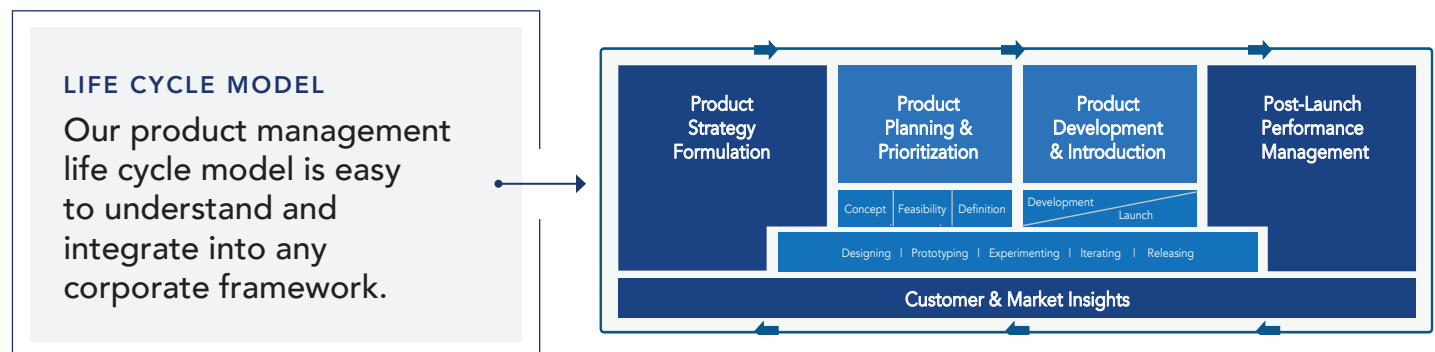

3-Day Corporate Workshop & Certification Program

OVERVIEW

The imperative for product managers and their teams to be agile, strategically oriented business people is vital to company success. Added to this, product managers must contribute to the firm's transformation, especially with more digital products in the portfolio. To support these imperatives, the Product Management Essentials workshop offers a comprehensive journey across the product life cycle, guided by experts who facilitate 18 intensive interactive exercises. There's nothing better than understanding a core construct and immediately putting it into practice, using your own products as examples.

KEY ADVANTAGES

- Focus on the entire life cycle, from start to finish
- Attention to both Waterfall and Agile product development methods (mixed mode)
- Emphasis on the "art" of influencing, storytelling, and getting the job done
- Cultivation of a "business ownership" mindset

THE PRODUCT MANAGERS DESK REFERENCE is the perfect platform for product managers to learn their jobs, earn empowerment, drive the team forward, and deliver results! The foundation for this workshop is The Product Managers Desk Reference, 3rd Edition by Sequent Learning Network's founder, Steven Haines.

THE LEARNING NEVER STOPS

Each participant is provided with ongoing support that includes:

- Access to the Product Management Professional Certification Exam
- 25 Alumni Continuing Education (ACE) videos that cover key topics of this workshop
- 14 templates to help you apply the learning after the workshop

Corporate Workshop Outline
